VITRIFIED TILES

the beginning

In 1994, the Antique group of companies marked the inception of their journey into ceramics. After gaining experience galore in various other fields such as textiles, non - wovens and minerals, the Antique group of companies is now embarking on a novel ceramic brand, Antiqua Ceramics Pvt. Ltd. With about 7 other daughter companies under it's umbrella, the sky is the limit for the Antique group.

Extra long Kiln with
◀ **ITALIAN TECHNOLOGY** ▶
for best Quality Tiles

DIGITAL PRINTER

World's Best Printer
◀ **6 COLOUR** ▶
Digital Printer
for Excellent Clarity

◀ TECHNOLOGY AT ITS BEST ▶

In order to be distinctive and the best at what they do, the company uses state of the art technology without any compromises in the finesse and quality of the products.

Using high end machinery imported from Italy, contributes to the Company's success in being one of the best floor tiles and wall tiles manufacturers in the country today.

EXTERIOR

Exteriors can often be tricky to choose tiles for, as they can make or break a deal. Thus, serving the best of options in unglazed materials with a textured finish in order to avoid slipping. The wide variety of options are all ideal for outdoor mosaics and making good first impressions.

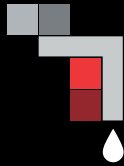

INTERIOR

Tiles are not only popular for their usual functionalities such as cleanliness and dense durability, but they also help set an ambience and a mood in any given space. Whatever may be your personal style or preference, there are myriads of designs and options to choose from. Be it modern, traditional or contemporary in design, tiles never fail to impress.

KITCHEN

Apart from being visually appealing, the array of designs available for kitchens also prove to be highly competent functionally. Easy to clean, non-absorbant, wear-resistant and long lasting are what these tiles are designed to be.

BATHROOM

The versatile options for bathroom tiles are enough to satisfy various languages of design, be it modern, traditional or simply impeccably clean. Not only are the aesthetically pleasing but are also packed with important qualities such as being hygienic, easy to clean and resistant to water absorption.

KIDS WAY

A child's room is typically clad in multitudes of colors and is almost an in-house playground. Presenting a range of designs that are specially made to please your little one's choices of colours, prints and patterns. While being vibrant and quirky, these tiles are scratch and stain resistant as well as durable in nature.

BUSINESS

When it comes to corporate spaces, tiles play a major role in setting the mood and look of it. They never cease to make an impression of being sophisticated, clean and professional. As these spaces are usually vast in area, the tiles available in the business range are bigger in size and classier in design.

It is easy to confuse these tiles with fabric, due to its fabric like texture and design. Although while it looks like fabric, its feel and finish aren't the same. These tiles have a matte yet smooth finish. They are adequate to make any space look modern as well as novel, compared to other options.

Glossiness	Glossmeter		90 %

TILES FIXING INSTRUCTION

1. Plaster the surface of the floor to be tiled with smooth finish and complete the plastering and curing at least two weeks prior to tiling.
2. Before fixing tiles, lay them out in desired pattern and make sure that they give acceptable blend of color, Please note that certain amount of shade variation may occur in the tiles due to extreme firing temperature. Size variation up to $\pm 0.75\%$ and warpage upto $\pm 0.5\%$ of the dimension are allowed by all international standards for floor tiles. **THE COMPANY WILL NOT ACCEPT ANY LIABILITY ONCE TILES ARE FIXED.**
3. Before fixing tiles on the floor, we strongly recommend to randomly select tiles from different boxes and lay them in the desired pattern to make sure that pattern so formed gives you an acceptable blend of color, shade & size variation are inherent characteristic in manufacturing of ceramic tiles.
4. Kindly look for the arrow on the back of the tiles and flow the laying pattern as shown in bellow diagram.

Please note that the company does not accept any liability in case of problem arising out non-adherence to the above fixing instructions.
