HAND CARVED SERIES

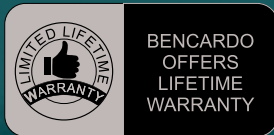

A new Apex family of Bencardo kitchen sinks is known for sturdy construction and excellent quality. Handcrafted from premium 18 gauge T-304 stainless steel, this sink suits any decor style, from the traditional to the modern kitchen. The extra-deep basin easily accommodates your largest cookware, including baking sheets and stockpots. Commercial grade finish protects the surface from rust and oxidation, with a neutral color to match all kitchen appliances. Gently curved corners are easy to clean and offer a stylish look for the modern kitchen. For a quieter kitchen experience, Noise Defend soundproofing eliminates noise and vibration when the sink is in use.

Features

- Stainless steel finish
- Unique R-10 curved corners for easy cleaning and a stylish look
- Premium T-304 Stainless Steel Construction having 18/8 chromium/ Nickel content that protects against corrosion & rust.
- Sound Insulated with Thick Rubber Dampening Pads & Stone Guard Undercoating
- Channel Grooves Engineered for Optimal Drainage
- 18-Gauge Steel for Added Durability
- Handcrafted by Skilled Artisans
- Commercial-Grade Satin Finish is Scratch and Stain-Resistant
- Extra-Deep Double-Bowl Design with Gently Rounded Corners for Easy Maintenance
- All Mounting Hardware Included
- Limited Lifetime Warranty
- Codes/Standards: Meets ASME A112.19.3/CSA B45.4

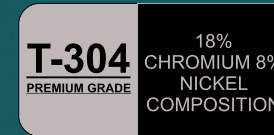

Guaranteed for life:
Bencardo Kitchen Sinks are warranted against any manufacturing defect for a period of 25 years giving you a hassle free experience for a life time.

Bencardo Apex kitchen sinks is known for sturdy construction and excellent quality. Handcrafted from premium 18 gauge T-304 stainless steel, this sink suits any decor style, from the traditional to the modern kitchen.

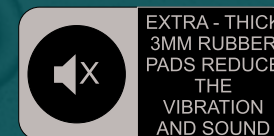

Manufactured from T-304 premium-grade stainless steel, Bencardo Apex Sinks have an 18/8 Chromium/Nickel content to protect against corrosion & rust.

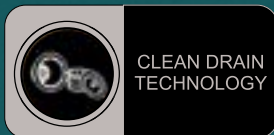

Bencardo Apex Kitchen Sinks uses 1.2mm to 1.5mm thick steel for all its hand crafted sinks, which makes the sink less vulnerable to denting or bending stands up to heavy daily use.

Commercial-grade undercoating provides an extra level of soundproofing and protects the sink from condensation buildup

Bencardo Apex Sinks having extra thick rubber dampening pads which absorb noise and vibration while the sink is in use for a quieter user experience.

Specially designed 3 piece T-304 stainless steel coupling fitted with an easily removable clean drain bin, filters out the solid residue (food waste, vegetables, any leftover solid waste) effectively and helps to maintain a cleaner sink after every use.

As an additional line of protection against damage, the new over-Flow system is especially effective in domestic environment. The over-Flow system helps prevent sink overflow incidents and potential multi-level flooding.

- 1 Cardboard Box
Extra_Tough 5-Ply Corrugated Carton
Adds An Extra Layer of Protection For the Sink
- 2 Polystyrene Foam
Absorbs Shock & Vibration to Protect against Damage
Custom-Molded to Cushion Sink
against Impact
Stop Sink From Shifting in Package to Prevent Scratches & Scuffs
- 3 Non-Woven Cloth Bag
Flexible & Water-Resistant Material

Innovative design with traditional excellence.

Greater functionality, usability and durability.

The exposed surfaces are handblended to a lustrous highlighted satin finish.

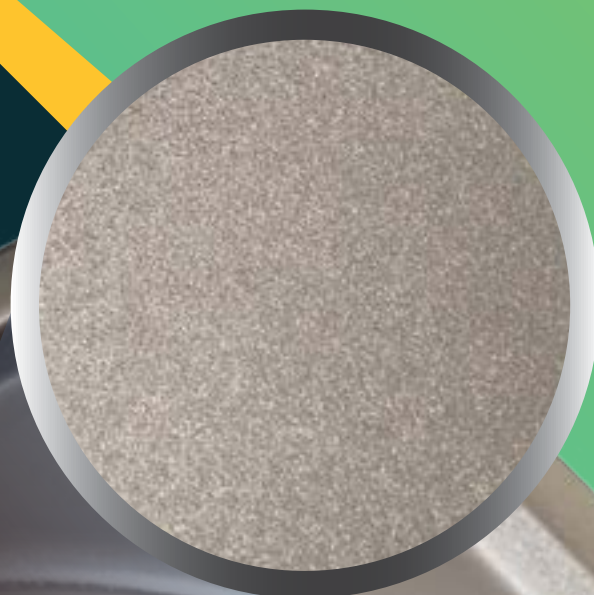

Sound absorbing pads reduce the vibration and sound.

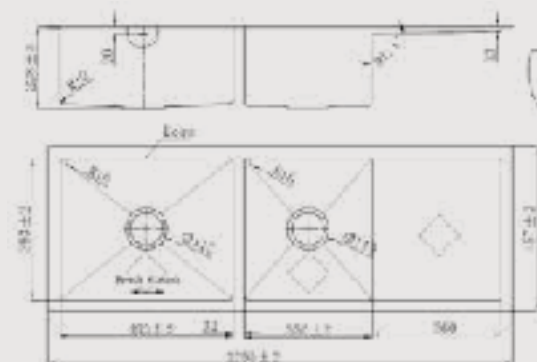

Oulin undercoating solution to protect the sink from wet-rotted situation.

 **Looks Newer Longer**
Textured matt surface with high wear points stands the test of time without losing its sheen, preventing damage that could age your sink. To keep your sink clean, simply wipe with a damp cloth.

CARE & CLEANING OF STAINLESS STEEL SINKS

- Rinse and wipe down your sinks after use.
- Once each week, use mild bleach free cleaner to wipe your sinks.
- Keep the Sink Lamination intact till the entire installation phase to avoid any surface damage.
- Do not use any metal scouring pad on your sink causes rust and scratches.
- Avoid placing a rubber mat on your sink bottom.
- For sanitation purposes, we recommend regularly disinfecting your sink with a light bleach solution

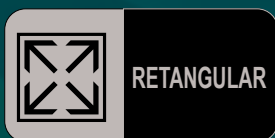

Precision Series

Pressed Kitchen Sink

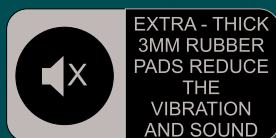

Enjoy the advantage of sinks built to suit any style and any budget. Constructed from Premium T-201/T-304 stainless steel for maximum durability and affordability. Precision Series Sinks offer lasting functionality and exceptional value of money. Multiple configurations provide the flexibility to create a versatile kitchen workspace.

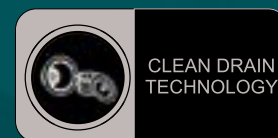

Deeper bowl with rectangular shape provides deep and large enough space to wash any utensils.

Bencardo Precision Sinks having extra thick rubber dampening pads which absorb noise and vibration while the sink is in use for a quieter user experience.

Specially designed 3 piece T-304 stainless steel coupling fitted with an easily removable clean drain bin, filters out the solid residue (food waste, vegetables, any leftover solid waste) effectively and helps to maintain a cleaner sink after every use

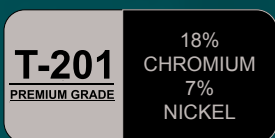

(19G) thick steel Bencardo Precision Kitchen Sinks uses 0.8mm to 1.0 mm thick steel for all its Pressed sinks, which makes the sink less vulnerable to denting or bending stands up to heavy daily use..
