#InspiredByYou

Change is ever-present but it has a special effect in one place: The Bathroom.

What will the bathroom of the future look like? It will be smarter. It will include applications that reduce water usage and save time. It will be space saving and eco-friendly, with multimedia functions. It will feature a mix of both high tech and economical design. Because this is where we wake up and switch off. Where we clean ourselves, recharge our batteries, reinvent ourselves – every day.

Care of Chrome Finished Faucet

- Use a soft sponge or cloth to clean, never use abrasive material like a bristle brush or scouring pad. • Do not use cleaners containing ammonia, bleach, or acid which can damage the chrome finish
- Use a mild detergent (such as dishwashing soap). Do not use abrasive cleaners.
- Rinse and be sure to wipe the entire surface dry.
- For perfect foam flow of water, the aerators should be cleaned regularly.
- Do not over tighten the faucets to the wall/wash basin.

Bencardo Faucets are manufactured under the highest standards of quality and workmanship. Bencardo Faucets warrant to the original purchaser that this faucet will be leak and drip free during normal domestic use. If this faucet should ever develop a leak or drip, Bencardo Bathware Center will free of charge provide the parts necessary to put the faucet back in good working condition. A replacement for any defective part will be supplied free of charge for installation to the purchaser.
